PROFILE

Detail-oriented Software Engineer with hands-on experience designing and developing scalable full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Demonstrated ability to build and consume RESTful APIs, implement secure authentication systems, and manage application state in complex, production-grade environments. Adept at writing clean, maintainable, and well-tested code with a strong emphasis on performance and scalability. Seeking a Software Engineer role at a high-impact organization where engineering excellence and user-focused development are at the core.

EDUCATION

AISECT University

Jharkhand, India

Bachelor of Computer Applications in Computer Science

2022 – 2025

- Among the top 5% of the batch
- CGPA: 8.0 / 10
- Data Structures, Database Management Systems (DBMS), Operating Systems, Software Engineering, Web Development

RM MM +2 High School

Pre-University (PCM)

2019 – 2021

SKILLS

Technical: JavaScript (ES6+), Java, HTML5, CSS3, React.js, Redux Toolkit, Node.js, Express.js, MongoDB, REST APIs, OOP

Tools: Git, GitHub, GitLab, Postman, VS Code

PROJECTS

E-Shiksha- A MERN Stack Project ([Link](#))

Jan 2025 – June 2025

- Developed a full-stack EdTech platform where instructors manage courses and students purchase them.
- Built responsive and dynamic user interfaces using React.js and Tailwind CSS.
- Designed and implemented RESTful APIs using Node.js and Express.js for course management and user operations.
- Integrated MongoDB with Mongoose for efficient data modelling and database management.
- Implemented authentication and role-based authorization for secure access control (Student/Instructor).

CollegeXP — Gamified Student Placement Portal (MERN Stack) ([Link](#))

Dec 2027 - Feb 2026

- Built a 7-level gamified placement portal using MERN Stack with JWT auth and role-based access for Admin & Students
- Developed XP system with task completion, streak tracking, badges, and automatic level unlocking
- Created Admin Dashboard with real-time stats, student progress monitoring, leaderboard, and manual controls
- Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, bcrypt, Axios

Eco-Friendly Product Landing Page ([Link](#))

June 2023 – July 2023

- Designed and developed a responsive eco-friendly landing page using HTML, CSS, and Bootstrap
- Built clean and user-friendly UI components with proper layout and styling.
- Implemented responsive design principles for mobile and desktop compatibility.

ONLINE COURSES AND CERTIFICATIONS

- Node.js course, ChaiCode, 2025
- React.js course, ChaiCode, 2024
- Java course, Great Learning, 2023
